Marshalling

Once competitors are called, they are to come to the marshalling area. No parents will be permitted in this area. All our volunteers are blue card holders and your club's teachers will also have access to their students. Many of our team are also first aid trained. Our organizers will prepare the girls by ensuring they warm up, their numbers are correctly pinned, hair and make up are suitable and will ensure they can access the bathroom. We have arranged colouring in and a selection of quiet games to keep the girls occupied and relaxed backstage. Please be aware that once competitors enter the marshalling area they will stay backstage until their sections presentation is complete. This will usually be around an hour and a half per section once the competitors go backstage a half an hour before their section is due to compete. You are welcome to send your child with a bag including a water bottle, quiet activities, simple snacks (please no products with nuts or eggs). Please name all club uniform items and bags so that any misplaced items can be returned. Each competitor will also be taken to have their photo taken, unless we have received communication that no photos are to be taken of an individual. Competitors can then be collected from the foyer outside the marshalling area after the presentations for their age group.

Running Order - times will be emailed once we can confirm how many of these age groups will have more than one section. If numbers permit, we will offer a beginner section and an open section in a some of these age groups.
